- Up to 19200dpi scan resolution
- 35-sheet ADF & 250-sheet input tray
- 2-line, 16-digit LCD with white backlight
- Super G3 fax with misdial prevention function
- High-speed, built-in USB interface

## KX-MB2170

- 26ppm printing/26cpm copying (A4)
- 24ppm quick duplexing (A4)
- 600dpi print resolution
- Up to 19200dpi scan resolution
- 35-sheet ADF & 250-sheet input tray
- 2-line, 16-digit LCD with white backlight
- Super G3 fax with misdial prevention function
- WPS key for easy Wi-Fi® setup

## KX-MB2130

- 26ppm printing/26cpm copying (A4)
- 24ppm quick duplexing (A4)
- 600dpi print resolution
- Up to 19200dpi scan resolution
- 35-sheet ADF & 250-sheet input tray
- 2-line, 16-digit LCD with white backlight
- Super G3 fax with misdial prevention function
- 100 Base-TX/10 Base-T LAN and USB interface

## QUICK DUPLEXING FOR HIGHER PRODUCTIVITY

Boasting 24ppm quick duplexing, Panasonic's KX-MB2100 series will give your business an immediate and dramatic boost in productivity, as well as offering the following advantages:

### Save space

Because you only need half as much paper – or even just a quarter as much when 2-in-1 duplex is used – you'll need a lot less storage space.

### Save money

You'll also save plenty on consumables. With 2-in-1 duplex, you can slash paper consumption by as much as 75%, while cutting toner consumption in half. Printer operating time is also reduced, saving electricity cost.

### Save time

The KX-MB2100 series' quick duplexing can print out double-sided documents at a rate of 24ppm, effectively cutting print time in half when compared to standard 26ppm MFP duplexing.

## QUICK-JOB KEY FOR EASY AND QUICK OPERATION

Up to three frequently used functions or complicated copy/scan settings can be programmed to the 'quick-job' keys and recalled at the touch of a button, saving you time and trouble. Programme your preferred 2-in-1 and duplex combined copy settings. You can quickly recall and execute the programme with the appropriate 'quick-job' key for mistake-free operation, without having to repeat the steps each time.

## SECURE PRINTING TO KEEP YOUR BUSINESS SECURE

With Secure Print, you can prevent confidential documents from being leaked by protecting them with high-level security. Print data is password-protected and temporarily stored on your computer's hard drive. It can be retrieved and printed only when the password is entered on the printer. Plus, there's no limit to the number of pages you can store since, unlike most secure print systems that use memory-based storage, the data is stored on your PC's hard drive.\*

\* Up to 30 jobs at a time can be printed from data on the hard drive. Any additional jobs can be printed once the first 30 have completed.

## MOBILE AND REMOTE PRINTING FOR MOBILE DEVICES\*

The KX-MB2100 series is compatible with the Google Cloud Print™ and Mobile Print application\*\*, enabling printing from mobile devices such as tablets and smartphones, and giving your business the edge in today's fast-moving world.

MOBILE  
PRINT  
APPLICATION

GOOGLE  
CLOUD  
PRINT™

\* Available on the KX-MB2170 and KX-MB2130.

\*\* Planned to be provided via App Store and Google Play by the beginning of 2015.
